2025 Clean Water Overflow and Stormwater Planning PEF: ABINGTON CW-13630

Last Modified SRF MassDEP 4/20/2024 3:22:42 PM

Instructions to Applicant - PART I, PART II, Part III and Part IV

The America's Water Infrastructure Act of 2018 and the Infrastructure Investment and Jobs Act amended section 221 of the Clean Water Act (CWA) to reauthorize the Sewer Overflow and Stormwater Reuse Municipal Grants Program (referred to as the Overflow and Stormwater Grant Program or OSG Program). The OSG program is intended to address local governments' infrastructure needs for combined sewer overflows (CSO), sanitary sewer overflows (SSO), and stormwater management.

The Massachusetts Department of Environmental Protection (MassDEP) and the Massachusetts Clean Water Trust (the Trust) will utilize funds received from the federal OSG Program to offer grants to implement eligible planning and/or design projects to small rural communities (populations of 10,000 or less) and Disadvantaged Communities with populations greater than 10,000. The maximum OSG grant award will be \$250,000 per applicant.

If needed, assistance in completing the PEF can be obtained, at no cost to small communities, through the Clean Water State Revolving Fund (CWSRF) Small Systems Technical Assistance Program. For more information on this program, please click here: <https://www.mass.gov/info-details/cwsrf-small-system-technical-assistance-program>.

Please see the instructions and Guidance document for help in completing this PEF: <https://www.srfmadep.com/state-revolving-fund-applications-forms/cw/cwosgpef.pdf>
