<p><b>13.a)</b> All contracts must have a clause requiring compliance with American Iron and Steel and the Build America, Buy America Act (BABA). The amendments to the Clean Water Act, as part of WRRDA, apply the American Iron and Steel (AIS) requirements to all treatment works projects. Furthermore, IJJA extends this procurement requirement to all SRF construction projects going forward with the inclusion of the Build America, Buy America Act (BABA). Starting on May 14, 2022, all steel, iron, manufactured products, non-ferrous metals, plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables), glass (including optic glass), lumber, and drywall used in infrastructure projects for federal financial assistance programs must be produced in the United States. MassDEP ensures that the required procurement language is included in contracts and conducts field verifications of project compliance.</p>		

<b>CONTRACT - CONTINUED</b>	<b>Indicate Location/Page # or Not Applicable (NA)</b>	<b>For MassDEP Use</b>
<p><b>13.b)</b> All contracts must have a clause requiring compliance with the American Iron and Steel (AIS) requirements. The following is suggested language developed by the EPA for use in SRF construction contracts. Any deviation from this suggested language should be reviewed and approved by local legal counsel.</p> <p>The Contractor acknowledges to and for the benefit of the City/Town of _____ (“Purchaser”) and the Commonwealth of Massachusetts (the “State”) that it understands the goods and services under this Agreement are being funded with monies made available by the Clean Water State Revolving Fund and/or Drinking Water State Revolving Fund that have statutory requirements commonly known as “American Iron and Steel;” that requires all of the iron and steel products used in the project to be produced in the United States (“American Iron and Steel Requirement”) including iron and steel products provided by the Contractor pursuant to this Agreement. The Contractor hereby represents and warrants to and for the benefit of the Purchaser and the State that (a) the Contractor has reviewed and understands the American Iron and Steel Requirement, (b) all of the iron and steel products used in the project will be and/or have been produced in the United States in a manner that complies with the American Iron and Steel Requirement, unless a waiver of the requirement is approved, and (c) the Contractor will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support a waiver of the American Iron and Steel Requirement, as may be requested by the Purchaser or the State. Notwithstanding any other provision of this Agreement, any failure to comply with this paragraph by the Contractor shall permit the Purchaser or State to recover as damages against the Contractor any loss, expense, or cost (including without limitation attorney’s fees) incurred by the Purchaser or State resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part, from the State or any damages owed to the State by the Purchaser). While the Contractor has no direct contractual privity with the State, as a lender to the Purchaser for the funding of its project, the Purchaser and the Contractor agree that the State is a third-party beneficiary and neither this paragraph (nor any other provision of this Agreement necessary to give this paragraph force or effect) shall be amended or waived without the prior written consent of the State.</p>		
<p><b>14)</b> All contracts for clean and drinking water projects awarded as a result of a proposal or invitation for bids under MGL Chapter 30 section 39M shall include a price adjustment clause for fuel, both diesel and gasoline; liquid asphalt; and portland cement contained in cast-in-place concrete. A base price for each material shall be set by the awarding authority or agency and shall be included in the bid documents at the time the project is advertised. The awarding authority or agency shall also identify in the bid documents the price index to be used for each material. The price adjustment clause shall provide for a contract adjustment to be made on a monthly basis when the monthly cost change exceeds plus or minus 5 per cent.</p>		
<p><b>15)</b> All construction contracts are subject to the Davis Bacon wage rate requirements and must include the provisions of the Davis Bacon Act Requirements in the contract.</p> <p>The <a href="#">Davis Bacon Act Requirements</a> are included.</p>		
<p><b>16)</b> The following suspension and debarment statement must be included in the contract:</p> <p>"The Contractor agrees that it will fully comply with Subpart C of 2 CFR Part 180 and 2 CFR Part 1532, entitled Responsibilities of Participants Regarding Transactions (Doing Business with Other Persons). The Contractor shall not award any subcontracts or purchase any materials from suppliers that appear on the Excluded Parties List System. The Contractor shall include this requirement in each subcontract and require it to be included in all subcontracts regardless of tier. **PM-1** Easements and Rights of Way are shown on the contract drawings and have been obtained or will be in place prior to the contract advertising.

**PM-2** Permits have been obtained by the LGU for the construction project except those which are the contractor's responsibility required for his equipment, work force or particular operations (such as blasting) in the performance of the contract.

**PM-3** Field Controls will be furnished by the LGU with the necessary benchmarks and base lines for the contractor to lay out the work.

**PM-4** Record Drawings will be prepared by the LGU or his representative. They may use the contractor's and sub-contractor's certified As Built drawings along with their own marked up set in the preparation of the Record Drawings.

**PM-6** Boring Logs are numbered and shown on both the plan and corresponding profile of each layout sheet giving depth, or refusal, water and unsuitable material level of the boring. The full boring logs can be found in the specification.

**PM-7** Breakdown of Bid Items for Sewer Pipe Installation, where applicable, have been incorporated in the bid documents.

**PM-8** Pavement over new sewer trenches in existing paved roads will be done in accordance with the CG's width limits and thickness.

**PM-9** Pipe testing requirements for the infiltration/exfiltration or low-pressure air test will be met prior to the release of pipe retainage monies.

**PM-10** Change Orders will be submitted on the Department's forms with appropriate documentation listed in the PM.

**PM-11** Utility Relocation has been minimized through communication with existing utilities prior to final design layout of the project.

**PM-13** Bid Opening Procedures of the Department are in place and will be followed for the contractor selection.

**PM-14** Payment for Rock Excavation is consistent with the pay limits and definitions of the PM.

**PM-15** Traffic Police are eligible as part of the administrative cost of the project.

**PM-16** Documentation Required to Substantiate Contract Quantities for Change Orders and Close Out have been incorporated in the Measure and Payment section of the specifications.

**DWS Policy 88 – 02** Review of Sewer Line/Water Supply Protection. Public water supplies within the influence of construction have been delineated on the plans. Any special construction methods should be shown on the plans and incorporated in the specifications.
